NOTE.—Tables 12 and 13 are based upon the records of the Commonwealth Meteorologist. The divisions correspond approximately with the statistical divisions shown on the map in frontispiece of the Official Year Book of New South Wales, each division being subdivided into two sectors indicated by the letters N, S, E, or W according as they constitute the northern, southern, eastern or western portion of the division concerned. Normal Rainfall is based on a period ended 1929.

No. 13.—Rainfall Index—Weighted Average Ratio of Actual to Normal Rainfall (New South Wales).

Normal Rainfall for each month = 100.

Area, 1952-53 (estimates based on a sample survey of wheat-growers): The area in N.S.W. actually sown with wheat for all purposes for the 1952-53 season was 2,800,000 acres. By mid-September, 1952, the area on which wheat was growing had been reduced by adverse weather conditions to 2,600,000 acres.

Yield, 1952-53: The Department of Agriculture forecasted on 4th December, 1952, that the wheat harvest for 1952-53 would be 44,500,000 bushels.

(a) Excluding Albury (regarded as a Victorian selling centre).

Weighted average, year ended June.

(b) Based on price paid by agreement by United Kingdom Government; excludes payments subsequently distributed from profits on re-sale of contract wool.

(c) Average return f.o.r. country rail siding, allowing for cost of bags and including governmental assistance to wheatgrowers. Pool season, generally year ended October.

(d) Annual quotations are the average of the twelve monthly prices, year ended July. Bases are as follows:—1938-39—Average of shippers' limits for bulk and bagged lots, f.o.r., Sydney.

1940-41 to 1948-49—Basic export selling price of Australian Wheat Board. Average for bulk and bagged wheat, f.o.r., Sydney.

1949-50 to date—Selling prices of Australian Wheat Board for f.a.q. bulk wheat, f.o.b., Sydney (see notes (k) and (l)).

(e) Wholesale price for f.a.q. bulk wheat, f.o.r. Sydney. Annual quotations are the average of the twelve monthly prices, year ended November.

(f) Weighted average price per pound of commercial butter paid for cream supplied to N.S.W. factories, inclusive of Government subsidy. Year ended June.

(g) United Kingdom contract price for choicest butter, f.o.b. Australia, except 1938-39, which is Sydney parity of average top price, London, weighted by monthly N.S.W. exports. Year ended June.

(h) Annual quotations are the average of the twelve monthly prices, year ended June.

(i) Not available.

(k) Wheat sold under the International Wheat Agreement.

(l) Wheat sold in excess of the International Wheat Agreement quota.

(m) Approximate return, including repayment of tax from Wheat Stabilisation Fund.

(n) Nominal.

(p) Preliminary.

‡ Year ended 31st May.

No. 35.—Monthly Production Statistics—New South Wales.

Quantities of Certain Articles Manufactured and Mined.

The following statistics of production are obtained principally by means of returns collected monthly from producers by the Government Statistician of N.S.W. in conjunction with the Commonwealth Statistician.

The figures for 1951-52 are subject to revision on receipt of annual returns.

FOOD AND DRINK.

No. 37.—Building Approved—Value of New Buildings, Alterations and Additions. Areas of New South Wales—Private and Government.

Note.—1. "Value" represents the estimated cost of the building when completed (exclusive of the land).

2. Building is classified as "Private" or "Government" according to ownership.
3. The value of building approved is the value of permits issued by local government councils, plus the value of contracts let or work commenced and day labour projects authorised by governmental authorities.
4. Buildings on rural holdings are for the most part excluded.

No. 87.—Stock Exchange Index (Sydney).

The following index of the values of the principal Company shares on Sydney Stock Exchange embraces the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales.

The prices of individual shares are unweighted, and each group average is the mean of the average monthly prices per £1 of paid-up capital. The aggregate index is the average of all the shares included in the groups with the addition of 24 miscellaneous shares. There is no base period as the index represents the ratio per cent. of the average prices of ordinary shares to their par values, adjustment being made where capital is written off or bonus shares are issued.

Average for Period.	23 Manufacturing and Distributing Companies.	10 Retail Companies.	8 Public Utility Companies.	5 Pastoral and Finance Companies.	5 Insurance Companies.	Total 75 Companies.	34 Active Shares included in foregoing.

No. 89.—Employment in New South Wales—Wage and Salary Earners in Civil Employment, Governmental and Private.

(1) Particulars in Tables 89 and 90 are estimates based on the Census of 1933 and subsequent quasi-censuses (*e.g.*, Civilian Register, 1943, and Occupation Survey, 1945), and returns supplied monthly by governmental authorities, and since July, 1941, by employers for purposes of Commonwealth Pay-roll Tax.

(2) The number of employees recorded on Pay-roll Tax returns relates to those whose names appeared on the last pay-roll of the month irrespective of whether they were actually working at the end of the month.

(3) Working proprietors, wage earners in rural industry, females in private domestic service, members of full-time defence forces at home or abroad, National Service Trainees in camp, and Government "relief" workers are not included.

(4) Further investigation may show the need for some revision in the monthly aggregates. It is not anticipated, however, that any such revision will affect the trends shown by the figures in Table 89. Some revision will be necessary in the totals and trends in employment for individual industries (particularly manufacturing) in Table 90. Estimates of employment by various classes of factory are in process of revision.

(5) Owing to the incidence of call-ups for short periods of National Service Training since August, 1951, and to other variations in numbers of personnel in the Services, some aspects of the changes in numbers of total Civilian Employees should be considered in conjunction with changes in numbers of defence personnel who are omitted from the figures in Tables 89 and 90, viz., (i) members of the full-time defence forces and (ii) National Service Trainees in camp. Particulars of (i) are not available for New South Wales, but the number of National Service Trainees in camp in New South Wales at the end of each month since August, 1951, was as follows:—

1951: August 3,600, September 3,600, October 3,600, November 700, December 1,000.

1952: Jan. 4,200, Feb. 4,400, March 4,500, April, 4,500, May 4,500, June 4,900, July 1,100, August 5,200, September 5,500, October 5,500.

* Price stabilisation level.

† Wartime peak.

No. 93.—Export Price Index-Numbers—Australia.

(Compiled by the Commonwealth Statistician.)

These index-numbers are compiled from the prices of 20 commodities which normally constitute about 80 per cent. of all exports. For some metals and for wheat (since July, 1945) the index of prices is deduced from the average value of current sales or shipments and hence shows some irregularity. In this index the prices of the commodities are weighted by the average annual exports (production in the case of gold) during the three years, 1933-34 to 1935-36.

(Base of each section: Average of 3 years ended June, 1939 = 100.)

Period.	Wool.	Wheat.	Butter.	Metals. *	Meats. †	Gold.	All Groups (including Gold).

† Beef, Lamb, Mutton, Pork.

‡ Including, in addition to groups shown, Sugar, Dried Fruits, Tallow and Hides (proportionate weight, 5·51 per cent).

§ Percentage distribution of base aggregate for "All Groups".

|| Nominal. || The price used in the index since 14th December, 1951, is the price of industrial gold on overseas premium markets.

** Preliminary.

No. 34.—Wholesale Price (Basic Materials and Foodstuffs) Index-Numbers.

(Compiled by the Commonwealth Statistician.)

The price quotations in the main have been obtained directly from manufacturers and dealers, and, with a few important exceptions, from **Melbourne** sources. Apart from locally produced building materials and one or two minor commodities, however, the price movements may be taken as representative of fluctuations in wholesale prices of basic materials in most Australian markets. The weighting system adopted is based on average annual consumption during the years 1928-29 to 1934-35 inclusive.

From August, 1950, to 30th June, 1951, a bounty was paid on raw wool purchased for local manufacture. The effective price, that is the open market (auction room) price less bounty, has been used in calculating the index number in this table.
